Enjoy the late summer in Provence and experience a wonderful week of creation, unique in France, in a group, by creating and installing a wall mosaic together, guided by an expert in the field! You will learn the particular techniques that Laurel has developed for more than 30 years to create mosaic murals around the world.

Her experience and great expertise will provide you with the necessary skills to learn the whole process of a mosaic mural creation and will immerse you in the exhilarating atmosphere of collective creation!

Accessible to people of all levels, this experience will allow you to consider future projects, whether in a professional or private context, on a large or small scale.

The skills required to create a wall mosaic are numerous and essential to master a long-term and technically impeccable project. They will be developed during the week, from the design of the project, the selection of materials, the organization necessary to set up a project, the practical realization of the mosaic and the techniques of permanent installation. The students will work as a group, under the guidance of Laurel to create a mural that will be installed at the end of the course, by the group, in the neighborhood.

The students will work with a wide variety of materials: tiles, glass and mirror, using all the specific tools. They will learn about cutting and precision techniques, using the technique known as the Tile Tape Method.

The workshop includes step-by-step instructions on the specific process of creating a mosaic mural as well as technical demonstrations of the use of tools, methods of realization for larger works and all explanations on the best practices and techniques of installation, grouting for all mosaic projects.

This week will be absolutely exceptional, both for its intense and professional content, its unique artistic and technical proposals in France, and for the fascinating personality of the artist Laurel True, whose world experience is no longer to be demonstrated; but also by the welcome at Esprit Mosaïque studio, Ali Baba's cave, super equipped, conducive to a collective and friendly atmosphere.
